

**Tuesday
19th July**

**DR ALAIN
KOHL**

MRC-University of Glasgow
Centre for Virus Research,
UK

Title:
*Innate immune
responses to
arbovirus
infections across
hosts*

**12:00pm
Auditorium**

**DMI
SEMINAR**

**Host:
Prof John
Fazakerley**

Everyone welcome. For visitors wishing to have further discussions with the speaker after the seminar, light refreshments will be provided in the Doherty Institute Tearoom on Level 5.

Dr Kohl obtained a diploma in Microbiology from the Westfälische Wilhelm-Universität Münster, Germany. His doctoral studies were carried out at the Institut Pasteur, Paris, France. During that time he started working on arboviruses and has been working on this topic ever since. Following post-doctoral work with Richard Elliott at the Universities of Glasgow and St. Andrews in Scotland, Dr Kohl moved to the University of Edinburgh on a Wellcome Trust-supported fellowship to start his group in 2006. He also joined the Roslin Institute as Career Track Fellow and on 2011 moved back to the University as MRC Programme leader at the newly formed MRC-University of Glasgow Centre for Virus Research. Dr Kohl's main interest is arbovirus-vector interactions but he also has projects on host responses in vertebrate cells and recently more field-orientated work.

**UNIVERSITY OF MELBOURNE
DEPARTMENT OF MICROBIOLOGY
AND IMMUNOLOGY**
