

# Are you a mum?

## Have you given birth in Victoria?

You are invited to participate in this research if you are:

- A mother with hepatitis B *and*
- Have given birth in Victoria in the last 10 years

We want to understand the experiences of mothers with hepatitis B and their care during and after pregnancy to help improve health care services.

You are invited to participate in a one-time 45 minutes interview:

- **Either face-to-face or over the phone**
- **Interpreters will be available**
- **You will be offered a \$50 Coles/Myer voucher**

Your participation in this research is voluntary and private. You must be over 18 years to participate in this research.

For more information, visit:
